

WORKHORSE 325

Information and Specifications

The Workhorse 325 is a rugged, compact and easy to maneuver trailer which is perfect for all fire protection and dust control applications. This trailer is easily towed with a ½ ton pick-up truck or small tractor which makes this the ideal trailer for watering riding arenas, compacting roads or watering remote landscaping.

All Workhorse Water Trailers are built with quality materials and expert workmanship. The picture of this Workhorse 325 contains our top-of-the-line features: a 2" pump, a hose reel and 50 or 75 feet of heavy-duty hose.
